YSP-2020

BUS COOLER System

	2D Dimensional Drawing	Cooling Output	Air Flow	Current	Voltage	Weight	Serial Number
YSP-2020	1900 x 1280 x 168	13,000 Kcal/h (15.2 KW)	MIN. 2300 m ³ /h	90 A	12V and 24V	80 kg	C8001-00040

Highlights

- Performance Improvement Thanks to High Efficiency Heat Exchanger
- Ride Comfort Improvement Thanks to Low Noise and Dust-proof Structure
- Fuel-Efficiency Improvement Thanks to Light-Weight System
 - Adoption of SMC CASE
 - Adoption of Double Blower Motor
 - Adoption of Multi-Flow Type Condenser

Design

- Slim Design Air-Conditioning System
- Compact Design For Elegant Roof System

Stability

- More Pleasant Air-Conditioning with Application of User-Friendly Logic
- Extended System Life through Improved Durability of Entire Integrated Parts
